RETHINK:
Being mindful of our consumption and how we can be less harmful to the environment.
REFUSE:
Saying NO to buying new things all the time.
REDUCE:
Using / consuming less energy.
REUSE:
Finding new (and cool) ways to reuse older items.
REHOME:
Sharing, gifting or donating items to others.
REPAIR:
Fixing objects ratherthan throwing them away.
RECYCLE:
Making new things out of older items or objects.
ROT:
Turning food waste back into soil instead of trash.
NO PLASTIC BAG
SAVE OUR PLANET

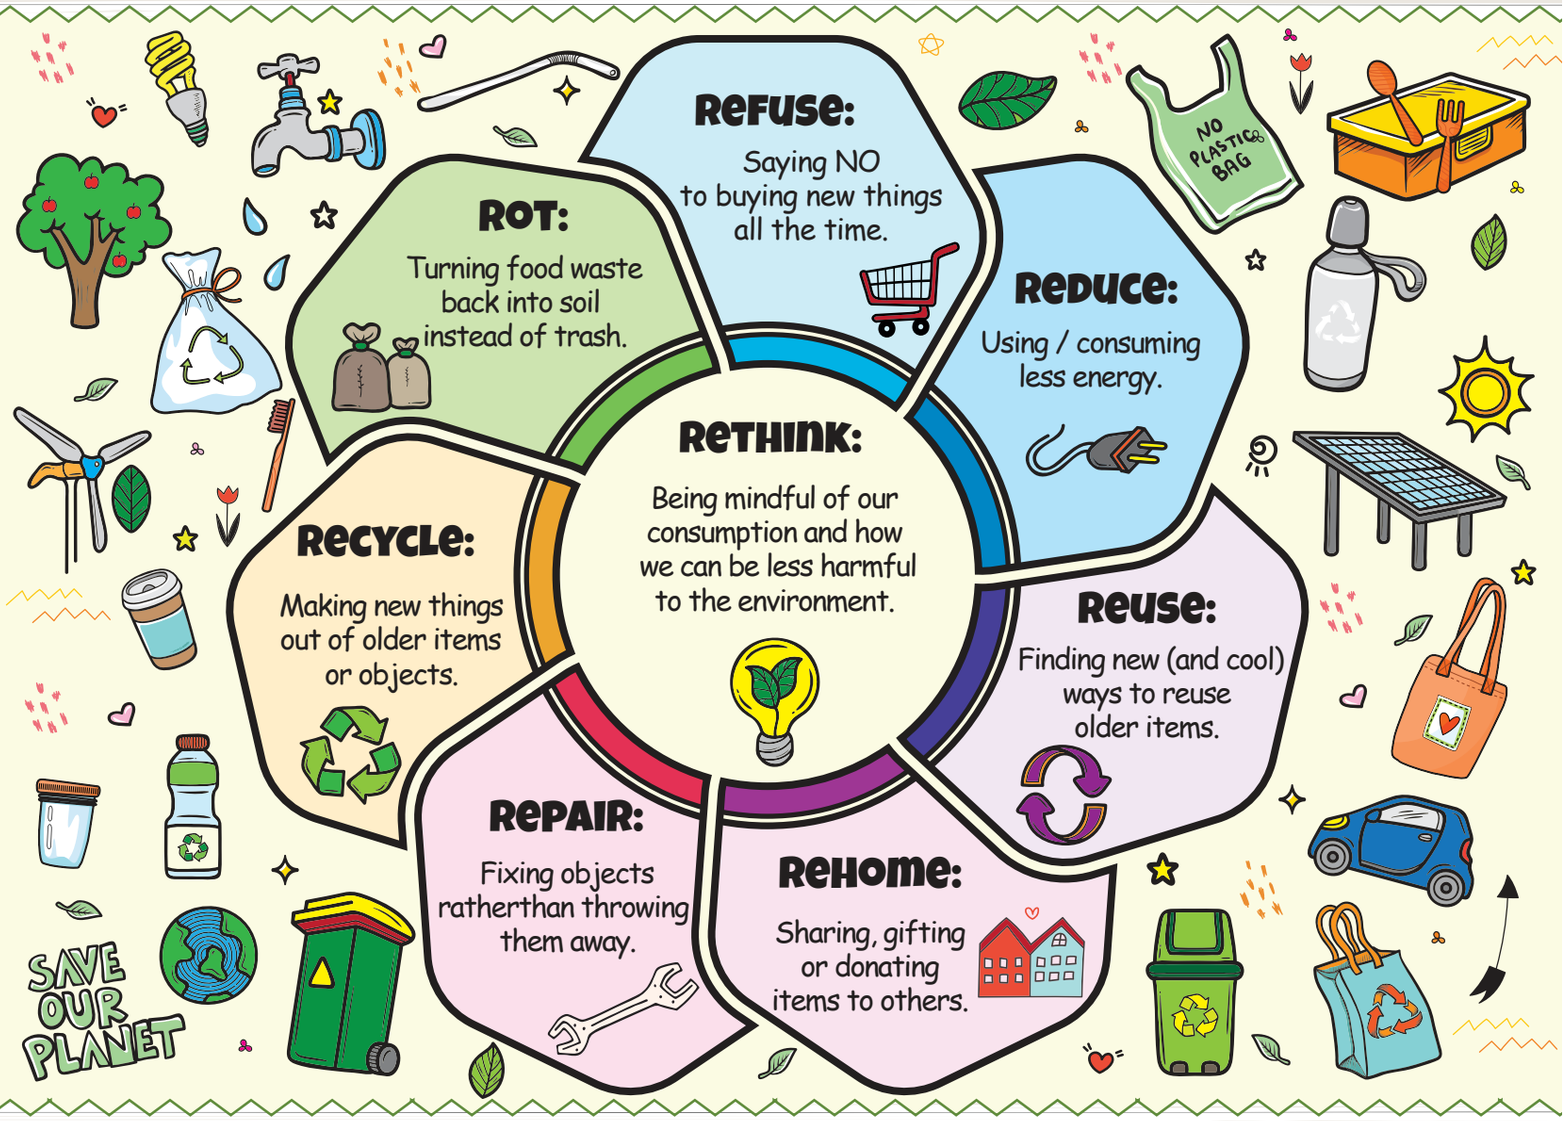
KIDS GO GREEN

Go to www.myDeen.club/GoGreen
to complete the colouring for this page.

Win a PRIZE!

Being Green; is more than just a color. It means to take specific steps to protect the environment around us. Every day, people (including us) make choices that affect the amount of trash and pollution تَلَوُّث that gets produced in the world. **What can we do?** A whole lot, actually. There are many ways to be 'green' such as reducing the amount of things we buy and throw away, to planting new plants.

Here are a few ideas on how we can be more 'green'.



As Muslims, we will be held responsible for how we treat our planet Earth. If we all do our part, then we can definitely make this world a better place to live in, insha'Allah! All we need to do is go green and follow the different types of R's listed above. To make it easier for you, we have grouped and condensed the different R's into **three** main ones : **Reduce, Reuse & Recycle!**

Once you finish, take a picture and send it to: **submit@myDeen.club**.
One winner will be chosen at the end of the month to win **$50**!
